Subject: G&D Mobil (WDNR BRRTS # 03-38-204911)

Hello Noel. Thank you for providing the Department with copies of the Fischer and MES reports. The Department has reviewed Bay's November 28, 2007 Site Investigation Work Plan for the G&D Mobil site and offers the following comments:

- It is not necessary to analyze soil for GRO.

- Please add PAHs to the list of soil and groundwater parameters.

- Determine whether or not groundwater monitoring well MW-1 been abandoned. If yes, please provide the Department with a copy of the abandonment form. If not, efforts will need to be made to locate and properly abandon this well.

- Please determine and report to the Department the location of the excavated soil.

Feel free to contact me if you have any questions. Thanks!
