RE: PECFA Status Update Request  
D & G Mobile Quikmart, 125 N USH 141, Coleman  
BRRS # 03-38-204911 PECFA # 54112-9792-25

Dear Mr. Hannan:

On November 19, 1998 the Wisconsin Department of Natural Resources (Department) sent a letter identifying you, the owner of the above property, as the responsible party for the cleanup of the petroleum release at the site. Since that date, an investigation of the petroleum contamination at the site has never been completed. On April 6, 2010, a notice of contamination was filed as a deed affidavit with Marinette County for the D & G Mobile Quikmart property. Since that date, the Department is not aware of any additional cleanup actions taking place at the site.

Funds are available from the Petroleum Environmental Cleanup Fund Award (PECFA) for the above site to assist you financially with an investigation, remediation and eventual case closure. Many environmental consultants are willing to act as agents on PECFA clean-up sites and will manage the cleanup and carry the costs on behalf of the responsible party until a claim for PECFA reimbursement is paid. This means there would be little out of pocket cost to complete the cleanup and bring the site to closure.

Your prompt attention to this request is appreciated as a new state law will end PECFA in the near future, meaning no further reimbursement will be available for the cleanup and anything going forward will be out of pocket costs.

Within 15 days, contact the department to discuss your options to complete the cleanup utilizing PECFA funding. Within 30 days, contract an environmental consultant to complete the cleanup. Please contact me in writing at the letterhead address, via email at [beth.erdman@wisconsin.gov](mailto:beth.erdman@wisconsin.gov) or by telephone at 920-303-5410.

Sincerely,

Beth A. Erdman  
Hydrogeologist
