Subject: JIM'S BAR - Jump River - Dry Weight cost (% Total Solids)
Attachments: 20180416075238989.pdf; 1840051673_inv.pdf

Carrie.

Please see attached invoice for recent soil sample analysis at Jims Bar.

We received DNR approval for PVOC+Naph testing in the April 13, 2018 Change Order (attached). However the lab is also billing for Dry Weight (% Total Solids - U&C S24)(see attached invoice and email below).

This is new but I understand the lab's position (see email exchange below).

Can you approve the additional cost?

Please advise.

Thanks!

Subject: Re: FW: JIM'S BAR (Pace Project # 40169795)

Ken, for PECFA U & C projects, we are approved to charge \$6.83 for total solids. We have not charged for this test in the past in error. After it was brought to our attention, we began charging for the testing as allowed by the posted PECFA U&C rates.

Please let me know if you have any further questions.

Thanks!

Brian Basten

Brian.

Can you explain the Dry Weight charge on this invoice? In the past we have only been charged for the PVOC+Naph analysis.

I will forward your response to the DNR Proj. Mgr. for approval.

Thanks

RE: **Public Bidding Deferred – Cost Cap Approved**
PECFA # 54433-9769-64-A DNR BRRTS # 03-61-000116
Jim & Cindy's Bar, W14764 State Hwy 73, Gilman

On April 11, 2018, the Wisconsin Department of Natural Resources (Department) received a scope of work (SOW) and cost estimate utilizing the chapter NR 747, Wisconsin Administrative Code, Usual and Customary Cost Schedule (Cost Schedule) for the site referenced above.

The Department has determined that the submitted SOW is reasonable and **approves** the additional costs. This site will be deferred from the public bidding process at this time. The Department will contact you if this site will be bid in the future.

This approval is for the installation of (7) new monitoring wells, and (2) rounds of groundwater sampling (PVOC + Naphthalene) from the following wells: MW-1,2,3,5,6,7,8A, 8B,9A,9B,10A, 10B, seven new wells, private wells (14789 STH 73-Keeper's new private well (VOCs), Jim's Bar, 8910 Elm, 8907 Birch, 8897 Birch, 8891 Bridge (Conv Store), 8890 Bridge, 14778 River, and 8887 Bridge. Nine (9) soil borings with sampling (PVOC + Naphthalene), installation of (6) soil vapor extraction vents, waste disposal and a letter report upon completion. A copy of the Department worksheet for the Cost Schedule tasks is enclosed for your reference.

Deferment Cost Cap Approved: \$51,835.05

Be reminded that ch. NR 700 semi-annual progress reporting is required until this case is closed.

Note: A claim for PECFA reimbursement must be submitted within 180 days of incurring costs (i.e., completing a task). If a claim for costs incurred is not submitted within this deadline, the costs will not be eligible for PECFA reimbursement. If you need assistance with filing your claim, please contact Tim Prosa at (608) 261-7715.

Usual and customary costs for activities included in this approval will only be reimbursed at a rate equal to or less than what is allowed on the Cost Schedule, and are reimbursed based upon the Cost Schedule that is in effect at the time the activity is performed. Costs for activities not included in this approval are not reimbursable without prior Department authorization.

Regulatory Correspondence (Task 7, Activity RC05), Claim Submittal (Task 27, Activity CS05) and Standardized Invoice (Task 28, Activity SI05) costs are not included in the cap approved above. These

activities will be reimbursed according to the task specifications and with submittal of proper supporting documentation at claim review time.

The Department approves a variance from the Cost Schedule for costs associated with the installation of a replacement private well for the Cal Keeper's residence (14789 STH 73): including connection to water supply, survey of property, and consultant coordination and supervision. Do not include these costs (\$9,108.00) on the standardized invoice for usual and customary cost activities. Include these costs on a separate company invoice. When you submit the claim for these costs, please attach a copy of this letter and the attached worksheet for the claim reviewer's reference. The Department waives the commodity three-bid requirement with this variance approval.

The Department considers the consultant the primary controller of costs during these activities. This approval does not guarantee eligibility of any specific costs that have been incurred or that may be incurred in the future. Final determination regarding the eligibility of costs will be made by the claim reviewer when the entire claim, including all invoices and reports, is submitted for payment.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (715) 365-8942.

Sincerely,

Carrie Stoltz
Hydrogeologist
Remediation and Redevelopment Program
