Hi Ken, I cannot submit a verbal estimate. I need either a formal bid or an email from the contractor. I don't see an issue with approval, but I cannot move forward until I have something in writing. Thanks, Carrie

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

**Subject:** Jims Bar - Jump River: Cut branches at Keepers

Hi Carrie.

Kramer Well Drilling (Chris) and I met with the McVickers and Cal Keepers to agree upon location for the new well at the property 14789 Hwy 73 (see attached aerial). We examined the property boundaries as determined by the surveyor. The McVickers did not agree with the survey, but we (Keepers, McVickers, Kramer, Meridian) did identify a suitable location for the proposed well (SE corner of lot – see attached) that everyone agreed upon.

To access this well with the drilling rig, we will need to cut a few branches. The branches are quite high and will require a “cherry picker” bucket to reach. A local contractor (Justin Goebel) gave a verbal quote of \$300 to mobilize to the site and cut the branches we need to get the drill rig to the well location.

*Can you please approve this amount of \$300?*

Also, we (Kramer, Keepers, Meridian) examined the existing electrical setup inside the house. We will need to install a breaker switch for the well....Kramer's quote assumed connecting to existing wiring but there is no breaker switch. I am going to meet with a local electrician (Ideal Service) to obtain a quote for this....will send in future email.

We are tentatively planning to install the well August 6<sup>th</sup>.

Thanks

Kenneth Shimko, PG
