**Subject:** Change order - Jump River - electrical disconnect for new well  
**Attachments:** Change Order - Install Electrical Disconnect for new well.pdf

Hi Carrie.

Enclosed is Change Order to install electrical disconnect for new well at the Country Store in Jump River. This is similar to what we did for the Keepers well.

Subject:       **Change Order:  
                  Install Electrical Disconnect for New Well at Country Store (8891  
                  Bridge Road)**

Site:            Jim's Bar  
                  W14764 Highway 73  
                  Jump River, Wisconsin  
                  PECFA No. 54433-9769-64  
                  DNR BRRTS No. 03-61-000116  
                  Meridian No. 05F781

### **Scope of Work**

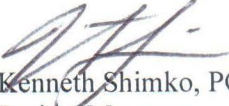

The new well will be connected to the current water supply through the Store floor. This requires a disconnect be installed by a licensed electrician adjacent to the entrance point.

The original plan was to connect to the existing well's water line adjacent to the existing well. However, the site owner requests the new connection inside the Store to avoid freezing the water line.

### **Cost**

Cost Estimate attached.

Sincerely,  
**MERIDIAN ENVIRONMENTAL CONSULTING, LLC**
