Joliet, IL 61604

Subject: Closure, Former Mobil #05-EKM (Mike's Lake Edge Mobil), 3900 Monona Drive,
Madison, WI

Dear Mr. Holland:

On October 4, 1999, your site was reviewed for closure by the South Central Region Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On October 5, 1999, you were notified that the Closure Committee had granted conditional closure to this case.

On November 21, 2000, the Department received correspondence indicating that you have complied with the conditions of closure. The former monitoring wells (MW-1 through MW-7), soil vapor extraction wells (SVE-1 through SVE-4) and air sparge wells (AS-1 through AS-8) were abandoned in accordance to NR 141 Wis. Adm. Code. Based on the correspondence and data provided, it appears that your site has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

However, please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at the number below.

Sincerely,

Dino Tsoris, P.G.
Hydrogeologist
