RE: FILE REFERENCE # 237  
UST - DANE COUNTY

MOBIL STATION #05-EKM  
3900 MONONA DRIVE  
MADISON, WISCONSIN

Dear Ms. Jahnke:

I am writing in response to your letter of May 13, 1994 concerning the construction schedule for the subject site. This site was being bid last fall when winter set in so I incorporated the bid information in the bid package for ten other sites in Wisconsin for this spring.

The equipment for this site, as the nine others, has been ordered and the bids for the installation have been received and are currently being analyzed. The following is a tentative schedule for completion of work regarding this site:

- June 15 - Bid analysis completion - Let Contracts
- July 1 - Complete the obtaining of building permits and discharge permits required - Begin construction.

I would be glad to supply you with copies of the equipment orders and, by June 15, the contracts.

Should you have any further questions, please contact me at 815-423-7668.

Yours truly,

P. D. Gates
