Hey Andy –

B3.a looks great, but a few things for B.3.d:

1. Show TW3100, TW3500 as abandoned
2. remove “to be abandoned” from TW1500
3. add “to be abandoned” to MW100

I might’ve missed those from the last one.

Thanks!
Josie

Hi Andy,

I've reviewed the revised attachments and found just a few things that need to be revised yet:

1. Figure B.3.a
 - a. Include TW1400 in ES plume
2. Figure B.3.d
 - a. RMSC monitoring wells MW300, MW700, MW800, MW900, MW1100 and MW1200 should say they're properly abandoned on the map.
(These were all properly abandoned in 1997 as part of the Randys Mobile Case (can be found on pages 93-111 of Randys Site File))

I'm sure your eyes go just as cross eyed as mine do when trying to catch everything, but we're getting there!

Thanks,
Josie
