**Subject:** Military

I have reviewed the situation with my tenants at both properties and it is dire due to COVID. Business is extremely slow and rents will be delayed or will not come in for a period of time that remains unknown. It is still my responsibility to make mortgage and property tax payments. Unfortunately the funds are not available to stay above water. Therefore, I am applying for Disaster Loan Assistance.

In order to expedite the clean up, the DNR will have to take over and get this done. I am confident that the DNR can do a better job. Further, I am afraid that harassment at work--which can potentially compromise patient care--will continue by DNR staff despite my best efforts to coordinate this.

I have full confidence that the DNR can mobilize and complete this project within the 2 week timeframe that you have outlined. I will inform the tenants accordingly and will work with my attorney to facilitate the timeline as outlined.

Please advise if you need additional clarification.

Regards,

Neziri
