---

Matt – Sampling two weeks ahead of time is ok. As you know, we’re trying to establish stable/decreasing trends over time so shrinking the time between each sampling event may/may not be to our advantage. Please keep this in mind when it comes time to conduct the summer quarterly sampling event.

Feel free to contact me if you have any questions.

**We are committed to service excellence.**

Quarterly monitoring (exactly 3-months) coming up at end of month. Just seeing if we could do it earlier? Like next week?

Kristin – per below, I will be submitting basically the same change order with a few minor tweaks for 2 more rounds of groundwater sampling. These will be included in our quarterly groundwater monitoring report. So just an FYI – I will submit to you electronically and hard copy. Expect in the next week or 2.

Thanks much!

Matt – Thank you for the update. In the future, please submit paper and electronic copies of all submittals.

Thank you.

**Importance:** High

All,

Please find the data attached from September. We will quarterly sample again in December. A formal report will be generated at that time with our conclusions and recommendations. Please let me know if you have any questions. Thanks much!

Matt
