Subject: RE: Contingency Visit - Ladysmith SVE system-APPROVED!

Hi Ken, this email serves as your approval for a contingency visit to determine the issues with the SVE system. Please submit this email with your claim. I will make a note in Tracker. On April 29, 2019 you were approved for (1) contingency visit. Any future contingency visits will need a cost request. If you have any questions, let me know. Carrie

Subject: FW: Contingency Visit - Ladysmith SVE system

Carrie.

Followup to email string below and our phone conversation this morning, I request approval of a Contingency Visit to the Ladysmith SVE system (Dougs/Autostop).

I will need the assistance of an electrician to diagnose the problem. Can you also approve costs for electrician? I don't know how much time he will require...perhaps you could approve \$250 for electrician to diagnose problem and then I can call you with estimate to fix problem? Hopefully diagnosis will also fix problem, but I am a little worried about the SVE motor...it has been running continuously for 5 years and performed well (LNAPL is gone). May need to replace motor.

Thanks

Carrie.

I stopped by the SVE system at Ladysmith yesterday and was not able to re-start the system. I will need to hire electrician to help trouble-shoot the system and figure out why it isn't running.

Let's discuss this morning in phone mtg.

Thanks

Carrie.

I received this alarm (below) for the SVE system at Dougs/Autostop sites in Ladysmith.

I will be going through that area in next few days and will stop by.

Assuming it is just a power glitch which kicked out the motor, I can simply turn system back on and won't need contingency visit. But if it is something else, I will let you know.

Thanks
