Carrie.

C: Dave Larsen – REI
Bc: Gary Gilbert – Project Engineer

We have reviewed the data from Jennerman's (in latest REI report). In our opinion, the only value to keeping the wells is ground water flow measurements...and we have enough data for that.

Therefore, we do NOT want to keep/inherit any Jennerman wells.

Thanks

Hi Ken, this letter to the RP's of Auto Stop & Doug's will go out on Monday, August 5th, 2019. A copy is attached and asks the RP's to work with you to determine if the Jennerman's MWs are needed for further GW monitoring at these sites. If you have any questions, let me know. Thanks, Carrie
