Subject: Approval of Operation and Maintenance Report and Recommendations

BRRTS # 02-54-221852

Dear Mr. Fassbender:

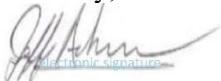

The department received EnviroForensics' "Remedial Status Update Supplemental to the Semi-Annual Remediation Site Operation, Maintenance, Monitoring and Optimization Report" on March 10, 2020. The report was submitted along with the appropriate ch. NR749 Wis. Adm. Code review fee.

The figures and tables were very helpful and the narrative well-written. Your conclusion that no further active remediation should be performed is well-reasoned and I agree.

The recommendation for additional monitoring is approved.

Thank you for your continued work on this project.

Sincerely,

Jeff Ackerman, P.G.
