Superior, WI 54880

Subject: **Close-out of Case # 54880-0456-07H/ BRRTS # 02-16-222701**
Tanks 51 and 52
2400 Stinson Ave
Superior, WI 54880

Dear Mr. Neve:

On August 17, 1999 the above site was reviewed for closure by the Site Review staff of the PECFA Bureau. Because the site involved only soil contamination, without a threat to groundwater, all issues relating to this site are administered by the staff within the Department of Commerce's PECFA Bureau. Using the standards established in NR 700, the Department has determined that this site has been remediated to a level protective of the environment and human health. The Department considers this site to meet environmental standards, and no further action is necessary.

This is based upon the information provided to us by your consultant. If, in the future, site conditions indicate that any contamination that might remain poses a threat, the need for further remediation would be determined and required if necessary.

Be sure on future submittals for closure your consultant includes the correct BRRT's Number as well as the Commerce number and the addresses for anyone who needs to be copied on the closure letter. With this letter I am asking that you or your consultant get copies to the appropriate parties.

Thank you for your efforts in the protection of the environment. If you have any additional questions, please call me at 715-762-5557.

Sincerely,

Shanna L. Laube, P.G.
Hydrogeologist
