Dear Pat and Tim:

This letter follows our conversation of May 25, 2011 at the above referenced site.

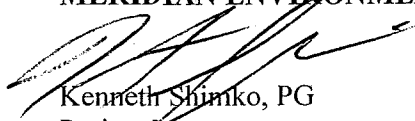

It appears there is a mistake in the Change Order dated April 8, 2011. The Change Order did not include enough footage for the proposed wells.

Enclosed please find a worksheet with the missing footage (plus one survey, one well development, one wellcover).

I have also included costs for a soil boring (10 ft) and soil sample in the former tank basin location. This boring will characterize the former tank basin soils.

Please contact me with any comments or questions.

Sincerely,
MERIDIAN ENVIRONMENTAL CONSULTING, LLC
