Ms. Kris Buettner
Route 1, Box 308
Elkhart Lake, WI 53020

Dear Ms. Buettner:

RE: Property at 9510 W. Greenfield Avenue, West Allis, Wisconsin

The Midwest Engineering Report dated December 26, 1989 indicates that hydrocarbon contamination exists at the referenced site.

Wisconsin Statute 144.76(3) states: A person who possesses or controls a hazardous substance which is discharged or who causes the discharge of a hazardous substance shall take the actions necessary to restore the environment to the extent practicable and minimize the harmful effects from the discharge to the air, lands, or waters of this state."

The Department identifies you, Kris Buettner, as the party responsible for taking the actions necessary to restore the environment. You are required to conduct a subsurface investigation to determine the extent and character of the contamination and implement a clean up program. A scope of work plan including the information contained on the enclosed sheet should be submitted to this office within 20 days.

To assist in hiring a consultant I have enclosed a list of firms which conduct environmental investigations.

If you have any questions please contact me at (414) 562-9685 or at the above address.

Sincerely,

A handwritten signature in cursive script that reads "Charles J. Krohn".
