Kevin, as discussed, you can issue a notice to proceed for the PCM for Malchow/Les Stumpf Ford 02-45-228649 for cap replacement (building demo and paving). Also add in 1) GW dewatering of potentially contaminated GW, 2) potential vapor concern for building construction due to soil/GW at/near former 130 S Bluemound Road (proposed new building location), and 3) if lost wells are found they need to be properly abandoned and documentation of abandonment sent in as part of Post-Closure Modification Final Documentation.

Please review the revised cap maintenance plan for accuracy, I have not reviewed the revised cap maintenance plan.

We are committed to service excellence.
