Subject: FW: Change Order - Donald Store - mob for Hydraulic Conductivity testing

Attachments: Change Order Oct 2016.pdf; 20161019114331987.pdf

Hi Carrie.

I am preparing PECFA claim for Donald Store sampling and noticed that somewhere between my Change Order Request (attached) and approved Change Order (also attached), the Primary Mob/Demob for hydraulic conductivity testing was omitted.

Please authorize Primary Mob/Demob for hydraulic conductivity testing – (U&C Code HCT10 – \$652.79).

Thanks

Kenneth Shimko, PG Meridian Environmental Consulting, LLC 2711 North Elco Road Fall Creek, Wisconsin 54742 (715)832-6608 (office) (715)579-0723 (cell) (715)832-6797 (Fax)

RE:

Public Bidding Deferred - Cost Cap Approved

PECFA # 54433-9441-23 DNR BRRTS # 03-61-168145

Donald Store, W16623 County Hwy M, Gilman

On October 13, 2016, the Wisconsin Department of Natural Resources (Department) received a scope of work (SOW) and cost estimate utilizing the chapter NR 747, Wisconsin Administrative Code, Usual and Customary Cost Schedule (Cost Schedule) for the site referenced above.

The Department has determined that the submitted SOW is reasonable and **approves** the additional costs. This site will be deferred from the public bidding process at this time. The Department will contact you if this site will be bid in the future.

This approval is for the excavation and disposal of 600 tons of contaminated soils, abandonment of monitoring well (MW-D2), installation of (1) new monitoring well (no soil sampling) and a monitoring well/piezometer nest with soil sampling (PVOC + Naphthalene), and (4) quarterly groundwater sampling events (PVOC + Naphthalene). However the (1) new MW and new MW/PZ nest will be sampled for VOCs (1st round only). Raw lab results to be supplied after 2nd round, letter report upon completion, consultant oversight and a change order. A copy of the Department worksheet for the Cost Schedule tasks is enclosed for your reference.

Deferment Cost Cap Approved:

\$48,247.58

Be reminded that ch. NR 700 semi-annual progress reporting is required until this case is closed.

Note: Per the recently enacted State budget (Wisconsin Act 55), a claim for PECFA reimbursement must be submitted within 180 days of incurring costs (i.e., completing a task). If a claim for costs incurred is not submitted within this deadline, the costs will not be eligible for PECFA reimbursement. If you need assistance with filing your claim, please contact Tim Prosa at (608) 261-7715.

Usual and customary costs for activities included in this approval will only be reimbursed at a rate equal to or less than what is allowed on the Cost Schedule, and are reimbursed based upon the Cost Schedule that is in effect at the time the activity is performed. Costs for activities not included in this approval are not reimbursable without prior Department authorization.

Regulatory Correspondence (Task 7, Activity RC05), Claim Submittal (Task 27, Activity CS05) and Standardized Invoice (Task 28, Activity SI05) costs are not included in the cap approved above. These activities will be reimbursed according to the task specifications and with submittal of proper supporting documentation at claim review time.

The Department approves a variance from the Cost Schedule for the coordination, excavation and disposal of 600 tons of contaminated soils from the source area. Do not include these costs (\$ 28,290.00) on the standardized invoice for usual and customary cost activities. Include these costs on a separate company invoice. When you submit the claim for these costs, please attach a copy of this letter and the attached worksheet for the claim reviewer's reference. The Department waives the commodity three-bid requirement with this variance approval.

The Department considers the consultant the primary controller of costs during these activities. This approval does not guarantee eligibility of any specific costs that have been incurred or that may be incurred in the future. Final determination regarding the eligibility of costs will be made by the claim reviewer when the entire claim, including all invoices and reports, is submitted for payment.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (715) 365-8942.

Sincerely,

Carrie Stoltz
Hvdrogeologist

Change Order: Excavation, Install Monitoring Wells, Sampling, Report

Donald Store (former)

W16623 County Highway M Gilman, Wisconsin 54433 PECFA No. 54433-9441-23 DNR BRRTS No. 03-61-168145

Meridian No. 05F813

Scope of Work

- Excavate, replace, dispose 600 tons contaminated soil from former tank basin. Approximate dimensions of excavation are 25 ft x 25 ft x 15 ft = 600 tons. Based on 3 Bids (enclosed), Contractor is Olynick. Soil disposal at Weyerhauser (Waste Mgmt). Collect sidewall samples (estimate 10)(PVOC+Naph).
- Abandon monitoring well MW-D2 during excavation.
- Install 3 monitoring wells:
 - Water table well screened 5 15 ft bg nested with piezometer screened 25 30 ft bg. (no soil sampling)
 - Replace MW-D2 (screened 5-15 ft bg) (no soil sampling)
 - Survey new wells
- Ground Water Sampling (2 quarterly events)(MW-D2R, two new wells)(PVOC+Naph)
- Hydraulic Conductivity tests (4 wells)
- Report

Donald Store Page 2

Cost Estimate

See enclosed U&C Cost Estimate. Bids enclosed.

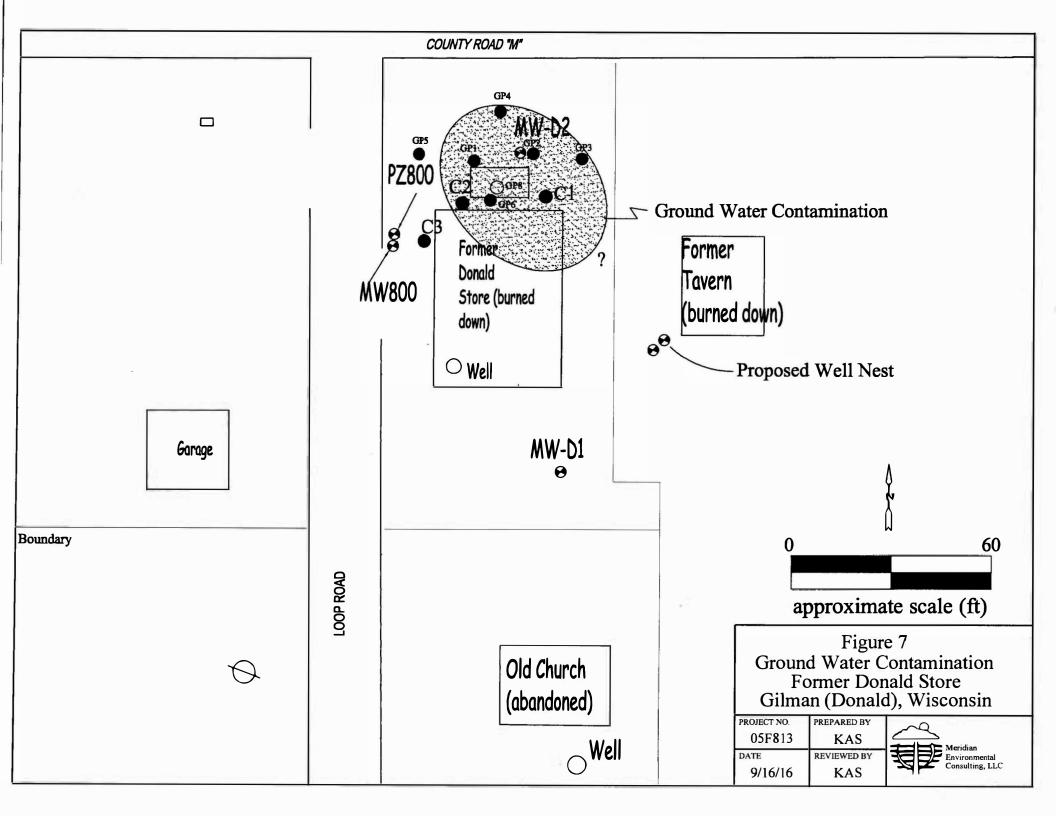

Schedule

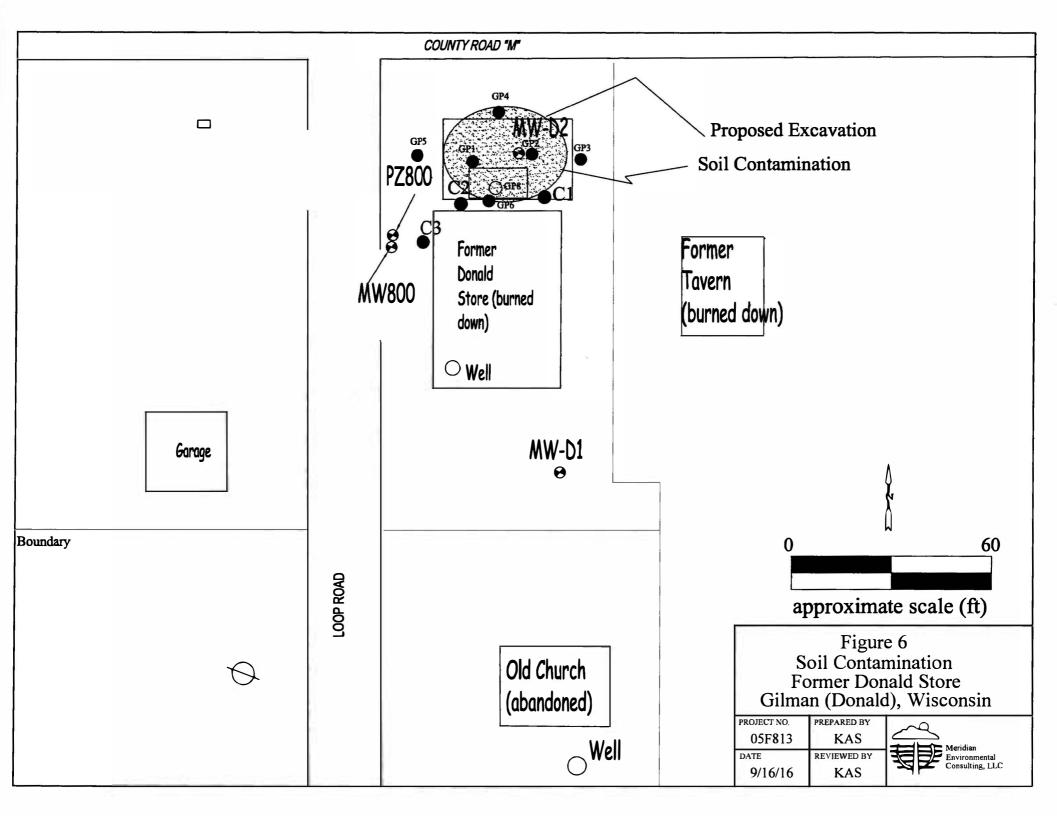

Goal is to excavate soil this fall before freezeup. Remaining work completed immediately after excavation completed.

Sincerely,

MERIDIAN ENVIRONMENTAL CONSULTING, LLC
