Jason and Ron,

I reviewed the Groundwater Monitoring Report dated August 10, 2018. I believe one more round of sampling will give the closure committee enough data to make a confident decision for closure. This is due to the free product in MW-1R and MW-3, and the single post-remedial sample from MW-6. Please submit a SOW and PECFA cost request for one more round of sampling all wells and the preparation of the closure request. I do not believe an update report will be necessary in between.

-Matt
