RE: Deed Affidavit and Stalled PECFA Status Update Request
     Hanson Property (Former Marinan), W3306 CTH BE
     BRRTS # 03-59-000861   PECFA # 54107-9999-06

Dear Mr. & Ms. Hanson:

The Wisconsin Department of Natural Resources (Department) records indicate that on December 10, 2008 a deed affidavit was filed on the property at W3306 County Road BE, Bonduel, WI 54107, to notify potential future owners that limited or no actions were taken to investigate or clean up the petroleum contamination associated with underground storage tanks.

Funds are available through **June 30, 2020**, from the Petroleum Environmental Cleanup Fund Award (PECFA) for the above site to assist you financially with an investigation, remediation and eventual case closure. Many environmental consultants are willing to act as agents on PECFA clean-up sites and will manage the cleanup and carry the costs on behalf of the responsible party until a claim for PECFA reimbursement is paid. This means there would be little out of pocket cost to complete the cleanup and bring the site to closure. When this program ends on **June 30, 2020**, no further reimbursement will be available for the cleanup from PECFA and costs going forward will be **out of pocket costs**.

Once the contamination is remediated or otherwise addressed to the satisfaction of the Department, the Department will record a second affidavit to supersede the original affidavit.

Within 15 days, contact me to discuss your options to complete the cleanup utilizing PECFA funding. I can be reached in writing at the letterhead address, via email at alex.edler@wisconsin.gov or by telephone at (920) 662-5149.

Sincerely,

Alex R. Edler
