SUBJECT: Site Investigation and Remedial Actions Options Report
Robinson Cleaners, 1819 E. Milwaukee St., Janesville, WI
WDNR BRRTS # 02-54-248342

Dear Ms. Matteson:

The Department has reviewed the April 2005 *Final Report and Remedial Options Analysis* report for the subject site, prepared by your consultant RSV Engineering, Inc. Based on this review, the Department approves the report. You are eligible for the Dry Cleaner Environmental Response Program and as a result, you can submit a reimbursement application for site investigation costs to the Department.

In addition, the next step for you is to solicit consultant bids for the remediation phase of the cleanup process. Please be aware that revisions to ch. NR 169, Wis. Adm. Code, have been approved and the revised rule will go into effect sometime late summer or fall. The revised rule contains changes to the requirements for the remediation bidding process. Also keep in mind that at a minimum, remediation of contaminated soils at the subject site will be required.

If you have any questions regarding this letter, please contact me at (608) 275-3209.

Sincerely,

Denise Nettlesheim
Hydrogeologist
Bureau for Remediation & Redevelopment
