Hi Dave, I spoke with Chris regarding your request below. A note has been placed in Tracker to approve (1) additional letter report (\$1,039.29) due to the large amount of MWs to be sampled. This report was omitted from the previous approval, dated 1/26/18. Please submit this email with your claim. If you have any questions, let me know. Thanks, Carrie

Thanks Carrie, please understand that the report you are asking me to complete includes documenting 92 stand-alone groundwater samples and 14 separate LNAPL reporting events. This is a lot of data documentation for a single U&C report allowance and that is why REI had requested two (2) report submittals.

Thank you,
