Subject: RE: PFAS scoping statement needed for Kelly's Grand View

REI was retained to complete a PECFA approved and authorized petroleum specific environmental investigation at the Kelly's Grand View site in Grand View. The completed case closure submittal documents all known parameters approved for analysis under the direction of the PECFA program. In accordance with Wis. Admin. Code § NR 716.07, an evaluation of all potential contaminants associated with a hazardous substance discharge and/or environmental pollution, including emerging contaminants should be completed. Below is the site specific evaluation for potential PFAS compounds and other applicable emerging contaminants that were historically or are presently produced, used, handled, or stored at the site. The evaluation should include any available information on whether any products containing PFAS were used in any process services, the duration of PFAS-containing product use, the type of PFAS contained in the product, and any areas of the site where PFAS-containing products may have been used, stored, managed, or discarded.

REI, on behalf of our Client, researched past land use at the subject property. The subject property was initially developed as an automotive dealership, and used as a retail gas station and restaurant until the tanks were removed in 1997. Based on REI's review of the historical documentation, the possibility of soil and/or groundwater contamination originating from PFAS or other identified emerging contaminant use on the subject property is considered minimal.

Thank you,
David N. Larsen P.G.
Senior Hydrogeologist / Professional Geologist

The image shows a business card for REI (Civil & Environmental Engineering, Surveying). The card is green and white. It features the REI logo, which includes a globe and the letters 'REI'. Below the logo, it lists the company name 'CIVIL & ENVIRONMENTAL ENGINEERING, SURVEYING', the address '4080 N. 20th Avenue, Wausau, WI 54401', and the website 'REIengineering.com'. To the right of the logo, there is contact information for David N. Larsen, P.G., Senior Hydrogeologist, including his email 'Dlarsen@REIengineering.com', telephone number '1-877-734-7745 / 715-675-9784', cell number '715-551-3434', and fax number '715-675-4060'. At the bottom of the card, there are four small icons: a person's head, a surveying tripod, a leaf, and a water tap.

CAUTION: External Email.

Hi Dave, could you please supply a PFAS/emerging contaminate scoping statement for Kelly's Grand View (03-04-000967). The site cannot officially close without a statement. If you need some examples, please let me know. Thanks, Carrie

We are committed to service excellence.
