DOCUMENTS NEEDED:

Closure Letter, and any conditional closure letter or denial letter issued	X
Copy of most recent deed, including legal description, for all affected properties	X
Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties	n/a
County Parcel ID number, if used for county, for all affected properties	X
Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.	X
Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.	X
Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)	X
Tables of Latest Soil Analytical Results (no shading or cross-hatching)	X
Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.	X
GW: Table of water level elevations, with sampling dates, and free product noted if present	X
GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)	X
SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour	X
Geologic cross-sections, if required for SI. (8.5x14" if paper copy)	X
RP certified statement that legal descriptions are complete and accurate	X
Copies of off-source notification letters (if applicable)	n/a
Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)	n/a
Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure	n/a
Copy of any maintenance plan referenced in the deed restriction.

Kingman, AZ 86401

SUBJECT: Final Case Closure
Riege Property, N8768 Old Highway P, Theresa, WI
WDNR BRRTS Activity #: 03-14-252703

Dear Mr Riege:

On March 22, 2007, the South Central Regional Closure Committee reviewed your request for closure of the case described above. The South Central Regional Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. On April 2, 2007, you were notified that the Closure Committee had granted conditional closure to this case.

On April 24, 2007, the Department received correspondence indicating that you have complied with the requirements of closure. Abandonment forms indicate that all site monitoring wells were properly abandoned; documentation of the proper disposal of gasoline contaminated soil was also received.

Based on the correspondence and data provided, it appears that your case meets the requirements of ch. NR 726, Wisconsin Administrative Code. The Department considers this case closed and no further investigation or remediation is required at this time.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wisconsin Administrative Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the GIS Registry. To review the sites on the GIS Registry web page, visit <http://dnr.wi.gov/org/aw/rr/gis/index.htm>. If your property is listed on the GIS Registry because of remaining contamination and you intend to construct or reconstruct a well, you will need prior Department approval in accordance with s. NR 812.09(4)(w), Wis. Adm. Code. To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line <http://www.dnr.state.wi.us/org/water/dwg/3300254.pdf> or at the web address listed above for the GIS Registry.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this closure decision or anything outlined in this letter, please contact Rachel Greve at 608-275-3220.

Sincerely,

Rachel Greve
Hydrogeologist

Subject: Conditional Closure Decision,
With Requirements to Achieve Final Closure
Riege Property, N 8768 Old CTH P, Theresa, Wisconsin
WDNR BRRTS Activity # 03-14-252703

Dear Mr. Riege:

On March 22, 2007, the South Central Regional Closure Committee reviewed your request for closure of the case described above. The South Central Regional Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the South Central Regional Closure Committee has determined that the petroleum contamination on the site from the the vicinity of a former underground storage tank that was located on the property appears to have been investigated and remediated to the extent practicable under site conditions. Your case meets the screening criteria of s. NR 746.07 or s. NR 746.08, Wis. Adm. Code, and the requirements of ch. NR 726, Wis. Adm. Code and will be closed if the following condition is satisfied:

MONITORING WELL ABANDONMENT

The monitoring wells at the site must be properly abandoned in compliance with ch. NR 141, Wis. Adm. Code. Documentation of well abandonment must be submitted to Rachel Greve on Form 3300-5B found at www.dnr.state.wi.us/org/water/dwg/gw/ or provided by the Department of Natural Resources.

When the above condition has been satisfied, please submit the appropriate documentation (for example, well abandonment forms, disposal receipts, copies of correspondence, etc.) to verify that applicable conditions have been met, and your case will be closed. Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the GIS Registry. To review the site on the GIS Registry web page, visit <http://maps.dnr.state.wi.us/brrts>.

Section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement. If there is equipment purchased with

PECFA funds remaining at the site, contact the Commerce PECFA Program to determine the method for salvaging the equipment.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, or welfare or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at (608) 275-3220.

Sincerely,

Rachel Greve

STATE BAR OF WISCONSIN FORM 1 - 1982
WARRANTY DEED

DOCUMENT NO.

Office of Registrar of Deeds
Dodge County, WI
RECEIVED FOR RECORD
NOV 13 1998
at 10:05 o'clock A.M.
DORIS WESTRA - Registrar

FEE
EXEMPT

17

This Deed, made between Robert C. Quandt

and Dennis Riege Grantor,

Grantee,

Witnesseth, That the said Grantor, for a valuable consideration

conveys to Grantee the following described real estate in Dodge
County, State of Wisconsin:

THIS SPACE RESERVED FOR RECORDING DATA

NAME AND RETURN ADDRESS
DENNIS RIEGE
4120 N. IRVING
KINGMAN, AZ 86401

042-1217-1513-002

PARCEL IDENTIFICATION NUMBER

Commencing at a point in the East line of Old County
Highway P 864 feet North of the center point of Section
15, Township 12 North, Range 17 East, thence running North
along the said East line of Old County Highway P 192 feet, thence in a Southeasterly
direction along the West line of State Trunk Highway 175 f/k/a Federal Highway No. 41,
283.52 feet, thence in a Westerly direction 80 feet to a point 80 feet South of the
place of beginning; thence North along the East line of said Old County Highway P
80 feet to the place of beginning.

This deed is given in satisfaction of a land contract between the parties recorded
October 2, 1997 in the office of the Register of Deeds for Dodge County, Wisconsin,
in Vol. 938 of Records, on pages 133-134, as Document No. 851869.

This is not homestead property.

ESTIMATED EXTENT OF SOIL CONTAMINATION ABOVE 10' TO 100' (ABOVE WATER TABLE) (INDICATED WHERE APPLICABLE)

WHERE: PID - PHOTOIONIZATION DETECTOR RESPONSE IN uV (PEAK HNU READING FOR GEORRIDERS)
 GRD - SOIL GASOLINE RANGE ORGANICS IN mg/kg (11/12/95)
 SOIL BENZENE CONCENTRATIONS IN ug/kg (11/12/95)
 NA - NOT ANALYZED
 NR - NO RECOVERY
 ND - BELOW LABORATORY DETECTION LIMIT
 <math><X</math> - NOT DETECTED TO LABORATORY REPORTING LIMIT OF X
 P-1 - GROUNDWATER BENZENE CONCENTRATION (SEP 1998) IN ug/l
 UST - FERTILIZER/INSECTICIDE STORAGE TANK
 ND - BELOW LABORATORY DETECTION LIMIT

NOTE: AIR ROTARY DRILLING TECHNIQUES REQUIRED TO ADVANCE BORINGS BEYOND 18' BELOW GRADE
 SOIL SAMPLING NOT POSSIBLE BELOW 10' DUE TO VERY DENSE NATURE OF SEDIMENTS
