July 23, 1996

Tom Rougeux
Biogenesis Enterprises, Inc.
610 West Rawson Avenue
Oak Creek, Wisconsin 53154

Dear Mr. Rougeux:

Subject: Case closure for north and south motor fuel facilities
(former 10,000 gallon diesel, 4,000 gallon gasoline, 2 x
10,000 gallon diesel tanks, Biogenesis Enterprises, 610
West Rawson Avenue, Oak Creek, file reference 241020010
ERR-LUST

Based on the investigative and remedial documentation provided to the department, it appears that the petroleum contamination at the above-named site has been remediated in compliance with the requirements of chs. NR 700 to 724, Wis. Adm. Code. Therefore, the department considers the case closed, having determined that no further action is necessary at the site at this time. However, the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare or the environment.

Thank you for conducting the additional sampling that my co-worker, Eric Amadi requested. Please have the monitoring wells properly abandoned in accordance with NR 140, Wisconsin Administrative Code. If you have any questions about this letter, call me at 414-229-0850.

Sincerely,

John Feeney
Hydrogeologist, Tank Response Unit
