SUBJECT: Approval of Site Investigation Change Order
Arcadia PCE (Former Dry Cleaner Building), 127 W. Main St., Arcadia, WI
WDNR BRRTS # 02-62-259051

Dear Mr. Manley:

The DNR received the Site Investigation Change Order prepared by Shaw Environmental, Inc. and submitted on your behalf on February 17, 2011. The change order is approved, and you may proceed with the proposed work.

The proposed work includes baseline groundwater sampling to establish current conditions. Further groundwater investigation will include the installation of three additional monitoring wells and two piezometers, followed by four quarterly rounds of sampling at all site wells. Soil investigation will include analysis of samples from ten additional soil borings. Four soil vapor samples and one indoor air sample will be collected to assess vapor intrusion. As part of the vapor survey, the consultant should also document the ventilation system installed in the building crawl space. Total cost approved for this change order is \$42,353.50.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review.

If you have any questions regarding the content of this letter, please call me at 715-839-3753.

Sincerely,

Erin Endsley
