**SUBJECT: SITE CLOSURE, Amoco Station #15567, 2875 University Ave., Madison**

Dear Mr. Stoelting:

On April 17, 1996, the above mentioned site's review by the Southern District's Closure Committee was completed. This committee reviews environmental remediation cases for compliance with state laws, standards, and guidelines to maintain consistency in the closeout of cases. Your site was closed pending the abandonment of the site's monitoring wells.

On July 25, 1996 the Department received the well abandonment forms. Based on the correspondence and data provided, it appears that your site has been remediated to Department standards. No further investigation, remediation, or other action is required at this time.

The Department acknowledges receipt on April 3, 1996 of your Form 4-B request for reimbursement under the Petroleum Cleanup Fund Act (PECFA). I have signed the Form 4-B in support of the "Completed Remedial Action (phase 1 and phase 2)". Enclosed please find the original signed white and green copies of the Form 4-B. The green copy should be kept for your records. It is your responsibility to forward the signed white Form 4, a copy of this letter, and a completed Form 1 to the Department of Commerce in order for your claim to be processed. An incomplete Form 1 will be returned unprocessed. Please call the Department of Commerce at (608) 267-3753 with PECFA questions.

Please be aware that this letter does not absolve the current or any future owner of this property from future decisions regarding this site or impacts which may be discovered and/or traced back to past or future activities at this site. If in the future the Department receives information which demonstrates that additional work is necessary, the Department has the authority to require further action.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at the number below.

Sincerely,
