

Technical Memorandum

MEMO: November 23 2015

RE: Summary of Activities Completed at Open BRRTs sites
03-41-261592 Fire training burn investigation
02-41-270038 – Former Skyway hangar
03-41-262107 Former HVAC Building
02-41-415377 Miller Hangar Building

Client GMIA – Mr. Greg Failey, Airport Environmental Manager

Prepared for: Mr. Paul Grittner, Hydrogeologist R&R Department, WDNR

Prepared By: Linda Fellenz, LF Green Development, LLC

Activities for BRRTs Sites

LF Green is providing this summary of previous activities for the BRRTs sites listed above:

03-41-261592 Fire Training Burn Area

- Initial investigation completed in December 2000
- Recommended additional investigation and soil removal;
- Additional soil and groundwater sampling in 2012 and 2013;

02-41-270038 Former Skyway

- GIS packet submitted in 2013 – I think it was missing some items?
- Initial investigation completed in December 2000
- Another sampling completed in 2012 –

03-41-262107 Former HVAC

- Is there a file to review?

02-41-415377 Miller Hangar

- Phase I suggested a UST was present at the site;
- No evidence in field of UST;
- GMIA will demolish the building and investigate the area during demolition.

Please feel free to contact me at 414-254-4813 or LFellenz@LFGreendevlopment.com if you have any questions or changes to this summary.
