Good morning, Ken,

Your change order request of \$191.10 for disposal analyses has been updated in Tracker. The request has been approved.

Please remember to submit a copy of this email at claim time.

Best,

Matt

**Subject:** 3-06-001296 Marum Property - Mondovi - Soil Disposal

Hi Matthew.

My understanding is you are the new DNR PM for this site (3-06-001296 Marum Property – Mondovi).

Please let me know (thanks!).

I am coordinating disposal of the soil cuttings from the drilling planned for Nov. 13 & 14 at this site. Please see note below from Advanced Disposal in Eau Claire. They will require the following analysis to accept the soil:

GRO (S1 \$24.78)

TCLP Lead (S26 \$83.16)

TCLP Benzene (S29 \$83.16)

This is additional cost of \$191.10.

I think PECFA Claims will accept an email approval and note in Tracker....shouldn't have to write formal letter.

Please email approval for these costs.

Thanks

**Subject:** RE: Dispose soil

Hi Ken,

This is correct for what needs to be test on the contaminated soil. Disposal rate is \$40.00 a ton. There is a onetime profile fee of \$70.00 to get this approved to dispose at 7 mile creek landfill.

Regards,

Jeff

**Subject:** RE: Dispose soil

Per our phone call this morning, my understanding is Advanced will require the following analysis for soil disposal:

Underground tank - gasoline

TCLP- Benzene

GRO

If leaded gasoline, add TCLP-Pb

Can you please confirm?

Also, what is disposal rate? I estimate 3 – 5 tons.

Thanks

Yes Ken that look correct to sample and test for.

Thanks,

Jeff

**Subject:** Dispose soil

Hi Jeff and Robyn.

I am working on a site near Mondovi. We will have a small amount of soil to dispose of (about 3 tons).

The site is gasoline.

What should I sample for? TCLP Benzene? GRO?

Please advise.

Thanks
