**Flag Status:** Flagged

Hi Matt.

Thanks for the approval of the excavation at this site (Julson Store – near Mondovi).

Since our phone call yesterday, I remembered this issue (see email below)...that is, I did not include disposal of drill cuttings in my original Change Order request.

We are planning 4 MWs (15 ft deep each). I estimate at least one drum per well so request approval for:

WD15	Disposal of Drill Cuttings	4 drums @ \$108.15 per drum = \$432.60
WD25	Mob (transport drill cuttings to landfill)	\$287.70

Total: \$720.30

I think you might be able to approve this by email approval and note to Tracker...??

Thanks.

Hi Matt.

I mailed a Change Order and Work Plan for the proposed excavation...you should receive soon.

I also proposed additional monitoring wells to complete the definition of the extent.

I noticed afterward that I forgot to include soil disposal costs (for monitoring wells' drill cuttings). We can address after your review of Work Plan and Change Order.

Thanks

Ken,

I agree with the report's conclusions. Please prepare a Scope of Work and change order request for the excavation.

-Matt

Hi Matt.

Just checking in to see if you had a chance to look at the report I sent recently for the Julson Store site in Buffalo County.

Let me know if you would like to discuss it and the path forward.

(I am pestering you because PECFA-time is running out and want to close as soon as possible...especially if we do a remedial excavation.)

Thanks!

ken
