October 30, 2002

Mr. Norman Getz  
Route 3, P.O. Box 206AA  
Grafton, West Virginia 26354

SUBJECT: Approval of DERP remedial action plan, Beloit Road Valet Cleaners, 6854 West Beloit Road, West Allis, Wisconsin BRR-BRRTS#02-41-271535.

Dear Mr. Getz:

We have reviewed the report, "DERP Subsurface Investigation Report and Remedial Option Evaluation", dated September 2002, which was prepared and submitted on your behalf by Sigma Environmental Services, Inc. In this report, Sigma summarizes the site investigation results and presents several remedial options, settling upon the recommendation of injection of potassium permanganate solution to remediate the soil and the groundwater contamination at the site.

Based on the information presented, approves the conceptual use of injecting potassium permanganate solution to remediate the soils and groundwater at this site. It is understood that you will be obtaining three bids for the implementation of this remedial option plan. Once you select the bid you wish to use to complete the remedial action plan, please submit all three bids you obtained, along with your reasoning for selecting the bid you choose to the department for our review and approval.

If you have any questions regarding this letter, you may contact me at (414) 263-8589.

Sincerely,

Gina Keenan  
Hydrogeologist
