Subject: FW: Floodplain Inquiry

Good morning,

Please see Al's email below regarding the floodplain question.

Then, as we discussed, if you'd like to replace the concrete in the area of the cap with new concrete, and you will not be excavating or otherwise disturbing the soil, all I will need is notification that you plan replace the cap (your call satisfies that requirement). Then, once work is complete please email me pictures of the newly capped area and include a brief description of what you did.

If you change plans and decide to do more intrusive work (excavation, removal of concrete without replacement, building in that area) please reach out and we can discuss what information we would need prior to that work.

Please reach out with any questions.

Thank you,
Caroline

Hi Caroline;

Here's contact information for representatives of Browntown, Green County. This is if he has property within the Village limits for local Zoning.

[Village of Browntown | Green County, WI \(greencountywi.org\)](http://greencountywi.org)

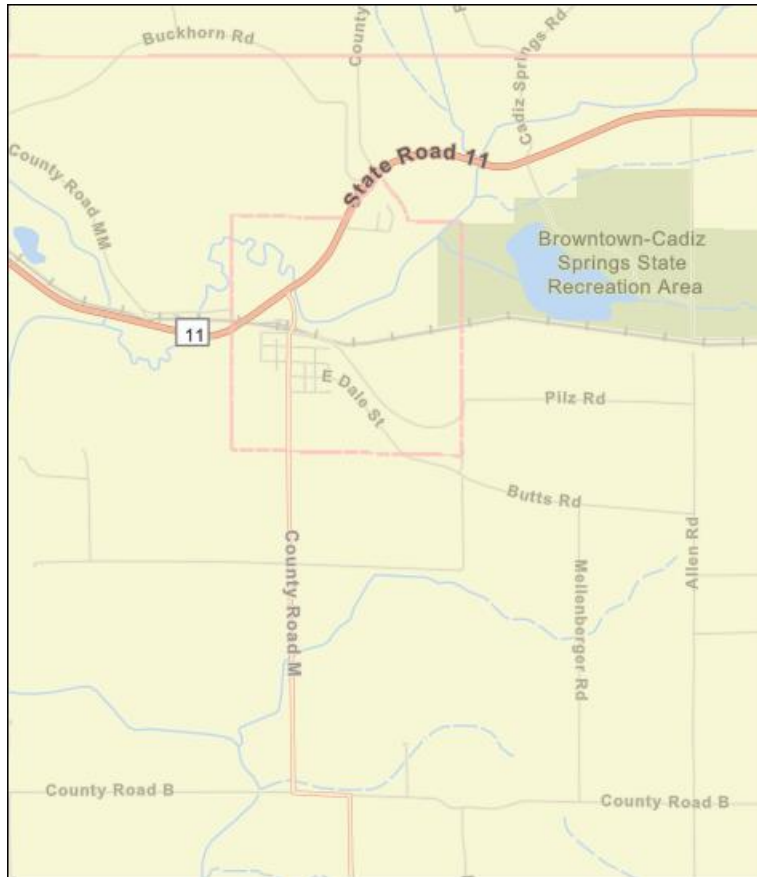

Outside the Village limits, then he would go to Green County Zoning:
Green Zone greenzone@greencountywi.org

Subject: Floodplain Inquiry

Good afternoon Al,

I hope your week is off to a good start. I just received an inquiry from Randy in Browntown that I wanted to run past you. Randy owns a former gas station in Browntown (217 County Highway M, Browntown) and he is hoping to do some remodeling at the property. His builder told him that he is within a

floodplain and he will need to work with DNR. Would you be a good point of contact for Randy? Or can you point me in the right direction?

Thank you,
Caroline
