Subject: Diesel Fuel Spill, September 5, 2008

Dear Jason,

On September 25, 2008, Oshkosh Corporation submitted a letter requesting closure of a fuel spill incident that took place September 5, 2008 at the South Plant located at 333 W. 29th Ave, Oshkosh, WI, 54902. In the letter, it was noted that the certificates of disposal of the contaminated soil would be submitted separately.

Attached to this submittal are copies of the original letter and the certificates of disposal from Waste Management's Valley Trail Landfill. If you have any questions or concerns, please contact me at (920) 233-9464. Thank you.

Subject: Diesel Fuel Spill, September 5, 2008

Dear Jason,

On September 5, 2008 at approximately 10:00 am, Oshkosh Corporation reported a release of diesel fuel to the DNR 24-hour Spill Hotline. The fuel was released on a gravel portion of the South Plant yard located at 333 W. 29th Ave, Oshkosh WI, 54902 due to an equipment malfunction. The spill was completely contained within the property, in an area approximately 20 feet by 40 feet.

On the same day, the impacted soil/gravel was excavated by an outside contractor and loaded into containers supplied by Waste Management. The area was excavated until no visual or olfactory evidence of fuel remained and was backfilled with clean gravel. Approximately 30 yards of soil was bio-piled at Valley Trail Landfill. The certificate of disposal from the Valley Trail Landfill will be sent as a separate submittal.

Oshkosh Corporation is respectfully requesting full closure of this spill incident. If you have any questions or concerns, please contact me at (920) 233-9464. Thank you.
