Hi Dave,

Just a update, I have most of the information ready to go, but I have to work out of town for the next 2 weeks, so its going to take me a while to finish up. Also, I found a separate file about Wausau Steel from the DOT 29 lead site. There is 2 or 3 thousand pages in that file with some pictures from the north side of Wausau

Steel with the same material, carbon rods & crushed batteries. So, I was working on that also.

I'll keep working on this and hopefully be done soon!
Have a good weekend.

Shane Rader
