### Comments:

A project review and introductory meeting was held on October 27, 2014 with representatives of Superior Water Light and Power, Summit Envirosolutions, and the new DNR project manager Erin Endsley. One of the topics discussed was the possible enrollment of the site into the VPLE program.

A groundwater monitoring round was conducted in December 2014 with all available wells sampled for PAH and VOC. A total of 19 samples were collected and a report is being prepared for submittal in 2015 Q1.
