Subject: Investigation Work Plan Approval

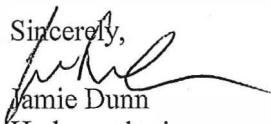

Dear Mr. Weber:

The Department of Natural Resources (Department) received a "draft" Remedial Design Investigation Work Plan on August 5, 2016 for review. On August 25, 2016, Superior Water Light and Power (SWL&P) received comments on the submittal. SWL&P submitted the final Work Plan along with a fee on August 31, 2016 and has asked for a review and approval.

The Department has reviewed and approves the final Work Plan. When the contracting is completed and a schedule is available please forward to me.

Feel free to contact me with any questions or comments on this issue.

Sincerely,

Jamie Dunn  
Hydrogeologist  
Remediation and Redevelopment Program
