SHPO Review: 23-0342/DG - Superior Water Light and Power- Manufactured Gas Plant  
Remediation Site  
Dear Mr. Ledezma,

We have completed our review of WHS #23-0342, Superior Water Light and Power-  
Manufactured Gas Plant Remediation Site and find that no eligible properties will be affected as  
none are present. A Phase I archaeological survey is not required for this project due to the  
extensive disturbance caused by previous industrialization.

If your plans change or cultural materials/human remains are found during the project, please  
halt all work and contact our office.

Please use this letter as your official SHPO concurrence for the project. Please feel free to reach  
out to me if you have any questions or concerns.

Sincerely,

*Felipe Avila*
