Dear Mr. Balliett:

On April 12, 2007, the Department issued a "Remedial Action Closure with Land Use Limitations or Conditions and Transfer of Case to Waste and Materials Management Program." On January 16, 2008, the Department issued a letter rescinding the transfer of the case to the Waste and Materials Management Program and requesting that site wells be abandoned.

On November 25, 2008, the Department received correspondence indicating that monitoring wells OW-144 (DNR ID #130) and OW-146 (DNR ID #134) have been properly abandoned. As stated in the Department's April 12, 2007 letter, monitoring well OW-145 (DNR ID #132) is currently being utilized as an upgradient monitoring well at Fire Training Burn Pit #1, an adjacent remediation site; therefore, OW-145 was retained for that purpose. Based on the correspondence and data provided, the Department considers this case closed and no further investigation or remediation is required at this time. The land use limitations or conditions outlined in the Department's April 12, 2007, Remedial Action Closure letter remain in effect.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding anything outlined in this letter, please contact me at (715) 839-3748 or via e-mail at mae.willkom@wisconsin.gov.

Dear Mr. Balliett:

On December 14, 2006, the West Central Region Closure Committee of the Department of Natural Resources (Department) Remediation and Redevelopment program reviewed the above referenced case for closure of the ongoing remedial action. On April 12, 2007, the Department issued a "Remedial Action Closure with Land Use Limitations or Conditions and Transfer of Case to Waste and Materials Management Program." The letter stated, in part, that "... the owner or operator of the solid waste site or facility must still abide by any conditions required by the Department's Waste and Materials Management program and/or the NR 500 rule series, Wis. Adm. Code, as long as any waste materials remain in place." The file was then transferred to the Department's Waste and Materials Management program. Since that time, new Department guidance has been issued clarifying programmatic responsibility for certain waste sites, and the decision to transfer the above case has been rescinded.

MONITORING WELL ABANDONMENT

The land use limitations or conditions outlined in the Department's April 12, 2007, letter remain in effect. However, the Department does not intend to require any specific conditions for monitoring and maintenance beyond those requirements. Therefore, monitoring wells OW-144 (DNR ID#130) and OW-146 (DNR ID#134) must be properly abandoned in compliance with ch. NR 141, Wis. Adm. Code. Documentation of well abandonment must be submitted to me on DNR Form 3300-005, found at <http://dnr.wi.gov/org/water/dwg/forms/3300005.pdf>.

PLEASE NOTE: As stated in the Department's April 12, 2007, letter, monitoring well OW-145 (DNR ID#132) is being utilized as an upgradient monitoring well at Fire Training Burn Pit #1, an adjacent remediation site to the west of Landfill #7. Monitoring well OW-145 should be retained for this purpose.

Please satisfy these requirements within 60 days of the date of this letter. If these requirements have not been met, your site will be reopened, and additional remedial actions may be necessary by you to eliminate the need for these requirements.

Dear Mr. Balliett:

On December 14, 2006, the West Central Region Closure Committee of the Department of Natural Resources (Department) Remediation and Redevelopment program reviewed the above referenced case for closure of the ongoing remedial action. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of remediation cases.

Based on the correspondence and data provided, it appears that your case meets the requirements of ch. NR 726 of the Wisconsin Administrative Code. The Department's Remediation and Redevelopment Program considers this remedial work complete and no further remedial investigation or remediation is required at this time. **This determination is the final step in returning regulatory oversight for monitoring and long-term care of a solid waste site or facility to the Department's Waste and Materials Management Program. You should understand that while a closure determination for the current investigation and remediation can be issued by the Department's Remediation and Redevelopment program, the owner or operator of the solid waste site or facility must still abide by any conditions required by the Department's Waste and Materials Management program and/or the NR 500 rule series, Wis. Adm. Code, as long as any waste materials remain in place.**

Please be aware that pursuant to s. 292.12 Wisconsin Statutes, compliance with the requirements of this letter is a responsibility to which the current property owner and any subsequent property owners must adhere. If these requirements are not followed or if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, welfare, or the environment, the Department may take enforcement action under s. 292.11 Wisconsin Statutes to ensure compliance with the specified requirements, limitations or other conditions related to the property or this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code. It is the Department's intent to conduct inspections in the future to ensure that the conditions included in this letter including compliance with referenced maintenance plans are met.

Pursuant to s. 292.12(2)(a), Wis. Stats., the soil cover that currently exists in the location shown on the attached map shall be maintained in compliance with the attached maintenance plan in order to minimize the infiltration of water and prevent additional groundwater contamination that would violate the groundwater quality standards in ch. NR 140, Wis. Adm. Code, and to prevent direct contact with residual waste that might otherwise pose a threat to human health.

The following activities are prohibited on any portion of the property where a soil cover is required as shown on the attached map, unless prior written approval has been obtained from the Wisconsin Department of Natural Resources: 1) removal of the existing barrier; 2) replacement with another barrier; 3) excavating or grading of the land surface; 4) filling on capped or paved areas; 5) plowing for agricultural cultivation; or 6) construction or placement of a building or other structure.

Any future redevelopment of this property will need to take into consideration the presence of waste materials and will require the Department to issue an exemption to build on a historic fill site, prior to the start of any construction activities. Please refer to our guidance document, "Development at Historic Fill Sites and Licensed Landfills," PUB-RR-683. Any soils or waste material that are removed and/or excavated as part of a redevelopment or other on-site activities need to be handled as waste and disposed of properly.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the GIS Registry. To review the sites on the GIS Registry web page, visit <http://dnr.wi.gov/org/aw/rr/gis/index.htm>. Because your property is listed on the GIS Registry due to remaining contamination, if you intend to construct or reconstruct a well, you will need prior Department approval in accordance with s. NR 812.09(4)(w), Wis. Adm. Code. To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line <http://www.dnr.state.wi.us/org/water/dwg/3300254.pdf> or at the web address listed above for the GIS Registry.

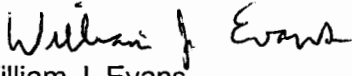

Your responsibilities for the long-term care of this solid waste site, based upon your ownership of the site, will remain intact. You will be required to conduct any monitoring and maintenance of the site deemed necessary by the Waste and Materials Management program. **It should be noted that Monitoring well OW-145 is being utilized as an upgradient monitoring well at Fire Training Burn Pit #1, an adjacent remediation site to the west of Landfill #7. In the event that monitoring at Landfill #7 is discontinued prior to closure of Fire Training Burn Pit #1, monitoring well OW-145 should be retained for this purpose.**

Brian Kalvelage will be the project manager for any remaining monitoring and long-term care that may be required under solid waste management rules, in accordance with the NR 500 rule series, Wis. Adm. Code. If you have any questions regarding future monitoring and long term care requirements, please contact Brian Kalvelage at (608) 785-9983.

CLOSED LANDFILL 7 MAINTENANCE PLAN

April 2, 2007

Property Located at: Fort McCoy, Sparta, WI

BRRTS # 02-42-279996

DNR FID#: 642024900

Introduction:

This document is the Maintenance Plan for a gravel cover at the above referenced property in accordance with the requirements of s. NR 724.13(2), Wisconsin Administrative Code. The maintenance activities relate to the gravel surface that completely covers Closed Landfill 7 and the underlying waste. The gravel surface is currently used for vehicle parking and staging of heavy equipment. The location of Closed Landfill 7, over which the gravel surface is to be maintained, is identified in the attached maps (Exhibit A).

Cover Purpose

The gravel surfaces over the waste serve as a barrier to prevent direct human contact with the waste that might otherwise pose a threat to human health. Based on the current and future use of the property, the barrier should function as intended unless disturbed.

Annual Inspection

The gravel surface overlying the waste will be inspected once a year, normally in the spring after all the snow and ice is gone, for disturbance or other potential problems that can cause exposure of underlying soils or waste. The inspections will be performed to evaluate damage due to settling, exposure to the weather and wear from traffic and other factors. Any area where soils or wastes have become or are likely to become exposed will be documented. A log of the inspections and any repairs will be maintained by the property owner and is included as Exhibit B, Cap Inspection Log. The log will include recommendations for necessary repair of any areas where underlying soils or waste are exposed. Once repairs are completed, they will be documented in the inspection log. A copy of the inspection log will be kept on file at the site's Owner/Operator address shown below and sent to the Wisconsin Department of Natural Resources (WDNR) upon request.

Maintenance Activities

If problems are noted during the annual inspections or at any other time during the year, repairs will be scheduled as soon as practical and funding will be sought to complete repairs. This plan is subject to the provisions of the Anti-Deficiency Act and repairs will be conducted as soon as funding is available. Repairs can include filling operations necessary as a result of the

aforementioned wear factors as well as any repairs due to unforeseen events such as a spill response. If necessary maintenance or response activities expose the underlying soil or waste, the owner must inform maintenance workers of the direct contact exposure hazard and provide them with appropriate personal protection equipment (PPE). The owner must also sample any soil that is excavated from the site prior to disposal to ascertain if contamination exists. The soil must be treated, stored and disposed of off-site by the owner in accordance with applicable local, state and federal law.

In the event the gravel surfaces overlying the waste are removed or replaced, any replacement barrier will be subject to the same maintenance and inspection guidelines as outlined in this Maintenance Plan unless indicated otherwise by the WDNR or its successor.

The property owner, in order to maintain the integrity of the gravel and soil surfaces, will maintain a copy of this Maintenance Plan on-site and make it available to all interested parties (i.e., on-site employees, contractors, future property owners, etc.) for viewing.

Amendment or Withdrawal of Maintenance Plan

This Maintenance Plan can be amended or withdrawn by the property owner and its successors with the written approval of WDNR.

GENERAL SITE
 FORT McCOY
 MONROE COUNTY, WISCONSIN

OPINION
OF THE ATTORNEY GENERAL
THAT THE UNITED STATES OF AMERICA
IS IN POSSESSION UNDER A CLEAR AND
COMPLETE TITLE OF CERTAIN LAND SITUATED
IN THE COUNTY OF MONROE, STATE OF WISCONSIN,
DESIGNATED CAMP MC COY

DEPARTMENT OF JUSTICE

WHEREAS, Section 1.02, Chapter 1, Title 1, Wisconsin Statutes, 1949, provides that:

"Subject to the conditions mentioned in section 1.03 the legislature hereby consents to the acquisitions heretofore effected and hereafter to be effected by the United States, by gift, purchase or condemnation proceedings, of the title to places or tracts of land within the state; and, subject to said conditions, the state hereby grants, cedes and conforms to the United States exclusive jurisdiction over all such places and tracts. Such acquisitions are limited to the following purposes:

(1) To sites for the erection of forts, magazines, arsenals, dockyards, custom houses, courthouses, post offices, or other public buildings or for any purpose whatsoever contemplated by the seventeenth clause of section eight of article one of the constitution of the United States.

(2) To a tract of forty thousand acres of land in township 17 and 18 north, ranges 2 and 3 west, near Sparta, in Monroe County, to be used for military purposes as a target and maneuver range and such other purposes as the war department may deem necessary and proper.

(3) To erect thereon dams, abutments, locks, lockkeepers' dwellings, chutes, or other structures necessary or desirable in improving the navigation of the rivers or other waters within the borders of this state,"; and

WHEREAS, Section 1.03, Chapter 1, Title 1, Wisconsin Statutes, 1949, provides that:

"The conditions mentioned in section 1.02 are the following conditions precedent:

(1) That an application setting forth an exact description of the place or tract so acquired shall be made by an authorized officer of the United States to the governor, accompanied by a plat thereof, and by proof that all conveyances and a copy of the record of all judicial proceedings necessary to the acquisition of an unincumbered title by the United States have been recorded in the office of the register of deeds of each county in which such place or tract may be situated in whole or in part.

(2) That the ceded jurisdiction shall not vest in the United States until they shall have complied with all the requirements on their part of sections 1.02 and 1.03, and shall continue so long only as the place or tract shall remain the property of the United States.

(3) THAT THE STATE SHALL FOREVER RETAIN JURISDICTION over every such place or tract to the extent that all legal and military process issued under the authority of the state may be served anywhere thereon, or in any building situate in whole or in part thereon."; and

WHEREAS, pursuant to said Section 1.02 the United States of America, in my opinion acquired fee simple title by purchase and condemnation proceedings to a tract of land in Townships 17, 18, and 19 North, Ranges 2 and 3 West, in Monroe County, Wisconsin; and

WHEREAS, pursuant to said Section 1.03 an exact description of the area so acquired containing 47,414.88 acres of land, more or less, and comprising a portion of the Camp McCoy military reservation, and accompanied by a plat thereof, and copies of deeds and judgments on declaration of taking certified by the Register of Deeds in the County of Monroe, in which said land is situated in whole, was submitted to the Governor of the State of Wisconsin under date of March 6, 1952.

NOW THEREFORE, it is my opinion:

1. That the United States of America is in possession of the lands and premises hereinafter particularly described for certain works or purposes provided for in the aforementioned Section 1.02 of Chapter 1, Title 1, particularly for use as a target and maneuver range and for construction of needful buildings and structures for use in connection with a military reservation officially designated as Camp McCoy, being 47,414.88 acres of land, more or less, and that such possession is under a clear and complete fee simple title, subject to existing easements for public roads and highways, public utilities, railroads and pipelines; and
2. That the land and premises that have been acquired by the United States of America for the purposes above stated are situated in the County of Monroe, State of Wisconsin, and more particularly described as follows:

All that part of Townships Seventeen (17), Eighteen (18) and Nineteen (19) North, Ranges Two (2) and Three (3) West, Fourth Principal Meridian, Monroe County, Wisconsin, more particularly described as follows:

Beginning at a point, said point being the Section corner common to Sections Twenty-seven (27), Twenty-eight (28), Thirty-three (33) and Thirty-four (34), Twp. RESPONSIBLE PARTY AFFIRMATION OF PROPERTY DESCRIPTIONS
CLOSED LANDFILL #7
FORT MCCOY, MONROE COUNTY, WI

The following affirmation by the responsible party is required by Wisconsin Administrative Code, Ch. NR 726.05 paragraph (3)(b)4.f.

I hereby affirm the following:

1. I believe that legal descriptions for all of the properties within or partially within the contaminated site's boundaries that have soil contamination exceeding generic residual contaminant levels as determined under ss. NR 720.09, 720.11 and 720.19, and groundwater contamination exceeding the enforcement standards as determined under ss. NR 140 at the time that case closure was requested, other than public street or highway rights-of-way or railroad rights-of-way, have been submitted to the agency with administrative authority for the site, either as an attachment to the site investigation report or as part of the groundwater GIS registry attachment to the case close out report.
