Subject: Notice Regarding HARP Negotiated Agreement Schedule Compliance

Dear Ms. Williamson:

This notice letter is a request for Tecumseh Products Company to submit to the Wisconsin Department of Natural Resources (Department) the Remedial Actions Standards Documentation Report for the Hayton Area Remediation Project (HARP) as required by the Negotiated Agreement (Agreement) section III paragraph N. The Department notified TRC Consultants on April 30, 2019 that it had completed an Ordinary High Water Mark (OHWM) determination at HARP. Paragraph H of Exhibit H in the Agreement states that the Remedial Actions Standards Documentation Report is due 120 days following the OHWM determination. Therefore, the Report was due on August 28, 2019.

We ask that Tecumseh Products return to compliance with the schedule of the Agreement. If you need additional information, please contact me.

Regards,

Bill Fitzpatrick, P.E., P.G.  
HARP Project Manager
