Subject: **No Further Action** on the December 1992 Hydraulic Oil Release from a hoist in the Highway Garage at 2302 Fish Hatchery Road in Madison

Dear Mr. Czecholinski:

We have reviewed this case file in light of the monitoring well results from the UST site nearby. The 1992 release of hydraulic oil does not appear to have reached or impacted downgradient monitoring wells. Therefore, **No Further Action** is necessary with regards to the hydraulic oil release. If, in the future, the Department receives information, which shows that additional work is necessary, we have the authority to require further action.

We appreciate your ongoing efforts to clean up this site. If you have any questions, give me a call.

Sincerely,

Theodore J. Amman  
Spill Response Coordinator/Hydrogeologist
