January 18, 2002

Mr Jim Oshel  
Jim's Tire and Auto  
520 West Madison Avenue  
Milton, WI 53563

Subject: Request for No Further Action for:  
Jim's Tire and Auto, 520 West Madison Avenue, Milton

Dear Mr. Oshel:

On January 15, 2002, the South Central Region Closure Committee reviewed your request for No Further Action at the above noted site. The closure committee determined that the petroleum contamination discovered during the excavation of footings for a building expansion had been properly investigated and remediated to the extent practicable. Therefore, your site will be closed under s. NR 708.09 Wisconsin Administrative Code. Therefore, the immediate action in response to a release has been completed and the Department of Natural Resources is requiring no further action at this time.

This review and determination pertains to the area north of the existing building as shown in Figure 3, Site Plan Map in the Summarization of Environmental Conditions and Closure Request prepared by Moraine Environmental, Inc.

If additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare to the environment, the Department has the right to reopen the case.

We appreciate your efforts to protect and restore the environment at this site. If you have any questions regarding this No Further Action determination, please contact me at (608) 275-3297 or Denise Nettesheim at (608) 743-4841.

Sincerely,

Wendell Wojner  
Hydrogeologist  
Bureau for Remediation & Redevelopment
