Re: Frei Oil (former)-Revised Budget Request  
207 Highway Street  
Horicon, Wisconsin 53032

Dear Mr. Mason:

Seymour Environmental Service, Inc. (Seymour) is pleased to present this budget request for the Frei Oil site in Horicon. We have conducted a Geoprobe™ investigation, installed four monitoring wells and conducted four rounds of groundwater monitoring. At this time we would like to submit a Site Investigation Report. This activity will increase the total costs above the \$20,000 PECFA limit.

We are requesting the following items: well reconnaissance, report preparation, hydraulic conductivity testing, report preparation and a change order request. We believe all of these items will be required for a complete site investigation report. The assessment data collected to date indicates that the groundwater contaminant levels are fairly stable and is restricted to the subject site and the Highway Street right-of-way.

Our budget request totals \$6,759.19 and is detailed on the attached U&C Schedule #21 invoice. We have been reimbursed a total of \$22,745.32, the only outstanding costs prior to this request are regulatory correspondences. Please call me with any questions at 608-838-9120. Thank you for your help with this.

Sincerely,  
**Seymour Environmental Services, Inc.**

Robyn A. Seymour, P.G.  
Hydrogeologist
