Subject: **New Project Manger**  
Frei Oil Co. (Former),  
207 Highway St Horicon, WI  
BRRTS# 02-14-287206

Dear Mr.Franz:

This letter is to notify you of a change in personnel within the Department of Natural Resources, Remediation and Redevelopment Program, for the above-referenced property (Site). I am the new project manager for the Site.

After reviewing the case file and site history for the Site, it appears this site is on the pathway to closure. It appears the next step is to complete another round of groundwater monitoring, recommended by the consultant to determine residual contamination levels at the Site. Specifically, MW2R which had elevated levels of petroleum organic compounds (PVOs) in 2020 from the Soil Remediation and Post-remedial Groundwater Monitoring Report. Please send me an update on the status of this site.

Please direct any future correspondence pertaining Frei Oil Co. (former) to:

Mackenzie Reynolds  
Hydrogeologist - Remediation & Redevelopment Program  
South Central Region  
Wisconsin Department of Natural Resources
