Mr. Martinez -

I will forward you a summary report with the latest groundwater sampling results.

Dakota Intertek Corp. was acquired by CNE, and will not be moving forward with environmental consulting services with respect to this site. I am in the process of transitioning Mr. Martinez to an active consultant, and will have him formally notify your office of the new consultant of record.

Thanks!

Don Callen

Don,

Can you provide an update regarding the Fabricare Former (02-68-305374) site? Are you still the consultant for this site? The last time we spoke you were attempting to gain access for vapor intrusion sampling at off-site properties, were you successful in gaining access? Also my understanding was that additional groundwater sampling had occurred, but I don't believe the results were submitted.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
