Cedarburg, WI 53012

RE: Former Cedarburg Light and Water Commission
W61 N617 Mequon Avenue, Cedarburg, Wisconsin 53207.

Dear Mr. Lythjohan:

Based on the information provided by Northern Environmental, Inc., the Wisconsin Department of Natural Resources (WDNR) has signed your PECFA Form 4. The Form 4, signed for "Operation/Maintenance & Environmental Monitoring ... (phase 3)", is enclosed. The WDNR is signing the Form 4 for the monitoring and sampling that has been conducted on-site. Please forward the white copy of the Form 4 and a copy of this letter to the Wisconsin Department of Industry, Labor and Human Relations (WDILHR) with your completed claim.

In accordance with the provisions of PECFA, evidence of a hazardous substance release was reported to the WDNR on June 9, 1993, as required in s. 144.76 (2) Wisconsin Statutes. The activities conducted at the site were not performed by the WDNR using federal LUST Trust funding (42 USC 6991). No enforcement action has been necessary at this site.

In order for the WDNR to consider this site for closure, the following items need to be submitted and/or addressed:

1. Volume estimate of the inaccessible impacted soils. Please be aware that a deed restriction may be required as a condition of case closure, if high soil concentration and significant volume remain in-place. However, your consultant may use the procedures listed in NR 720.19 Wis. Adm. Code to determine a soil cleanup standard specific to your site.
2. Advise your consultant to address the high contamination levels encountered at the Ruck Pond (Cedar Creek):

Thank you for your cooperation. If you have any questions, please contact me at (414) 229-0832 or at the letterhead address.

Sincerely,

Eric Amadi
