Dear Mr. Feeney:

On or about February 13, 1996, we discussed your agreement to accept quarterly groundwater monitoring for the first year at the Cedarburg Light and Water Commission Power Plant located at W61 N617 Mequon Avenue. This agreement was confirmed in a letter to you. You also agreed that if those results were acceptable to the DNR, monitoring will occur during and after 1997 on an annual basis. This agreement was also confirmed in a telephone call with you on June 11, 1996. Although a follow-up confirmation was expected, it remains my understanding that monitoring, depending on results, will occur on an annual basis beginning next year.

If this is not correct please let me know immediately. Thank you for your consideration.

Very truly yours,

Kaye K. Vance
