Good afternoon Maddy-

I don't believe there has been any movement on this case since the 2014 email you reference. I have an email out to my contact at Cedarburg Light & Water to discuss this issue and will let you know if/when they respond. Thank you.

Subject: Cedarburg Light and Water (BRRTS # 03-46-003301)

Dear Mr. Stu Gross,

My name is Maddy Salo and I am a Hydrogeologist at the Wisconsin Department of Natural Resources. I have recently reviewed the case file for the open BRRTS site called Cedarburg Light and Water (BRRTS # 03-46-003301). My records indicate that Stantec Consulting Services Inc. was hired by Cedarburg Light & Water to work on the above referenced property, and the last correspondence between the DNR and Stantec took place in May 2014. I have attached a copy of the email from May 2014. Could you tell me if any additional progress was made in preparing the closure packet from the email chain? Are you still in contact with Cedarburg Light and Water? Any information would be much appreciated.

Thank you in advance.

Sincerely,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
