Hi Pete,

Thank you very much for your message; it was a pleasure speaking with you this morning. I will convey your message to the Gorski Landfill PRP Group, and promptly advise you of their response and next steps.

Thank you again and best regards,

-Mark

You don't often get email from [peter.raymond@wisconsin.gov](mailto:peter.raymond@wisconsin.gov). [Learn why this is important](#)

Hi Mark,

Per our recent conversation, due to reorganization within the Remediation and Redevelopment Program, I am the new Wisconsin Department of Natural Resources (DNR) project manager for the Gorski Landfill site. In your annual landfill monitoring report that was submitted on April 18, 2024 you requested the departments concurrence with your conclusion that natural attenuation process are occurring to the extent that regulatory case closure would be appropriate. At this time, unless a technical assistance request is made along with applicable fee, the DNR will not be doing the full technical review of the site that would be needed prior to providing concurrence that submittal of case closure is appropriate. If you have any question moving forward please let me know.

Thanks,

**Pete Raymond**
