Daniel E. Bergsma, Vice President  
Albany International, Appleton Wire Division  
P.O. Box 1939  
Appleton, WI 54913-1939

Dear Mr. Bergsma:

Re: Chromium Spill Investigation - 714 East  
Hancock Street, Appleton, WI

The Department has received the STS report on the results of the soil samples taken through the floor and walls of your former operation on 714 East Hancock Street in Appleton. I would like to schedule a meeting to discuss this report and implementation of Phase II of the clean-up investigation. I have reserved a conference room for 10:00 a.m. on December 4, 1986, at the Lake Michigan District office located at 1125 North Military Avenue in Green Bay. Please call me at 414-497-6027 to confirm the meeting.

State Law requires the person responsible for a spill to take the actions necessary to restore the environment to the best extent practicable and to minimize the harmful effects of the spill on the environment (Section 144.76(3), Wis. Stats.). Since this investigation has not been completed and a clean-up plan has not been developed, the Department is considering issuing an Administrative Order under section 144.76(7)(c), Wis. Stats., to formalize the clean-up schedule to be discussed at the meeting.

If you have any concerns you would like to address prior to the meeting, please contact myself or Jim Reyburn.

Sincerely,

A handwritten signature in cursive script that reads "David E. Pflug".

David E. Pflug  
Environmental Enforcement Coordinator
