Dave,

Confirmed there is no investigative waste remaining at the site. The last of the waste was removed January 20, 2022 (the final manifest in section C.2 of the closure request).

Regards,

**Brian Kappen**, Senior Geologist/ Project Manager

Brian,

Can you confirm there is no investigative waste remaining at the site?

Thanks,  
Dave

Dave,

The attached zip file contains all of the revised, individual PDFs as requested. Based on your comments, the following documents were also amended in addition to the list below:

- Table A.3.b: Included GW RCL (3.84 mg/kg)
- Figure B.2.b.1: GP-41/TW-6 is included in the GW RCL plume
- Figure B.2.b.2: Shows Industrial DC plume as well (site is zoned industrial)
- Figure B.3.b.2: Included separate PAL isoconcentration contour

Would you like this zip file uploaded to the portal as well?

Thanks,

**Brian Kappen**, Senior Geologist/ Project Manager

Rob,

Appleton Wire (Former) case was granted closure by the committee today. Below is a list of revisions needed to the closure packet. Please submit each as an individual document so each can be replaced in the original packet.

Closure Form

- Table 5: Check xiii for Source Property
- Table 5: Uncheck "Continued Monitoring" boxes
- Section L: Remove PAL & ES exemption comments. State "None needed".

ATT A

- Table A.1.a: TW-6, 8/20/2018, Typo in Chloromethane entry
- Table A.2.b: Include GW RCL (3.84 mg/kg).

ATT B

- Figure B.2.a.1: GP-41/TW-6 should be included in GW RCL plume
- Figure B.2.a.2: Should show Industrial DC plume as well (site is zoned industrial)
- Figure B.3.b.1: Include separate PAL isoconcentration contour

ATT D

- Luvata CMP
  - Figure D.2-1: Should show Industrial DC plume as well (site is zoned industrial)
- Wood CMP

- Figure D.2-1: Should show Industrial DC plume as well (site is zoned industrial)

ATT G

- Luvata Notification

- Figure D.2-1: Should show Industrial DC plume as well (site is zoned industrial)

- Wood Notification

- Figure D.2-1: Should show Industrial DC plume as well (site is zoned industrial)

- ROW Notification

- Figures 1 & 2: Should show Industrial DC plume as well (site is zoned industrial)

- Figure 3: Include separate PAL isoconcentration contour

If you have any questions, please let me know.

Thanks,

Dave
